Better than the Protocols ..

Better than the protocols ..... read closely....

this is from Nahum Goldmann's 1915 book 'The Spirit of Militarism', Goldmann was a major Zionist figure throughout most of the 20th century and head of the World Jewish Congress from 1947 to 1977 ....

BLUE PRINTS FOR THE NEW WORLD ORDER existed in Jewish writings long before they were first published for the goyim in the Communist Manifesto of 1848. Nahum Goldmann lived his whole life as one of the top level international Zionists and in his 1915 book "The Spirit Of Militarism" (page37 - 38) he describes the Zionist method for destruction of Western Civilization which is required for transition into the New World Order. Below is an english translation from the copy housed in the collection of the Leo Baeck Institute, the original German is quoted further below.

"The historical mission of our world revolution is to rearrange a new culture of humanity to replace the previous social system. This conversion and re-organization of global society requires two essential steps: firstly, the destruction of the old established order, secondly, design and imposition of the new order. The first stage requires elimination of all frontier borders, nationhood and culture, public policy ethical barriers and social definitions, only then can the destroyed old system elements be replaced by the imposed system elements of our new order.

The first task of our world revolution is Destruction. All social strata and social formations created by traditional society must be annihilated, individual men and women must be uprooted from their ancestral environment, torn out of their native milieus, no tradition of any type shall be permitted to remain as sacrosanct, traditional social norms must only be viewed as a disease to be eradicated, the ruling dictum of the new order is; nothing is good so everything must be criticized and abolished, everything that was, must be gone.

The forces preserving traditional society are "free market capitalism" in the social economic realm, and "democracy" in the mental political realm. The capitalist free market does not fight against the old economic order, nor does democracy lead a fierce hot battle against the forces of reaction which oppose the new order, therefore our transformative work will be imposed through the unifying principle of the militaristic spirit, the negative task of

destroying the old established order will be completely solved and finished only when the all the human masses are all forcibly collectivized as uniformed soldiers under imposed mass-conformity of new order culturing.

After destruction of the old order, construction of the new order is a larger and more difficult task. We will have torn out the old limbs from their ancient roots in deep layers, social norms will be lying disorganized and anarchic so they must be blocked against new cultural forms and social catagories naturally re-emerging. The general masses will have been first persuaded to join as equals in the first task of destroying their own traditional society and economic culture, but then the new order must be forcibly established through people again being divided and differentiated only in accordance with the new pyramidal hierarchical system of our imposed global monolithic new world order.

Capitalism must be condemned as a fundamental misfortune caused by the wealth of capitalist power exploiting the false separation between the high rulers and the oppressed exploited masses. The masses must be induce to repudiate the concept of personal wealth and personal rights, this second task will also be solved only by virtue of the great guiding principle of the subordinating militaristic spirit in which superior ranks impose order on inferiors, which will bring the true aristocratic principle of "might is right" in the new world order: "those who can rule - shall rule".

Re: Better than the Protocols ..

I can't verify, but this only synchronizes with other accounts I have read and experienced.

For example, in Mein Kampf Hitler writes about attacks on the host culture and patriotism.
